

DCSI Seminar on
EMERGING TECHNOLOGIES & MARKETS IN DIE CASTING
2 June 2025, New Delhi
(3 June 2025 Forenoon: Plant visit, Details later)

Die Casting Society of India (DCSI, an affiliate of Lead Zinc Development Association) has great pleasure in announcing the above seminar to take the Indian die casting industry to the next level of excellence in technology and markets.

It is well known that the Indian die casting industry is poised for a quantum jump growth in the coming years. Meanwhile the die casting sector should continuously upgrade their technologies and skills to remain competitive and also to exploit new business opportunities at home and abroad. Both the automotive and non-automotive applications including builders hardware, decorative components, heat sinks etc., offer tremendous opportunities for the Indian die casting sector.

Focus:

The seminar is being organized so as to make the die casting industry competitive by inducting the latest technology in die casting and also for exploiting the huge untapped market potential. Selection of die casting machines, making of alloys, die design, die materials, application of software, defects analysis, finishing etc., will be covered.

Speakers & Titles:

Several well known overseas and Indian experts will be making very useful and informative technical presentations. Technical programme will be circulated in due course.
